The Gateway to Eastern India's Industrial Growth

INDUS-TECH Kolkata is Eastern India's leading platform connecting manufacturers, technology providers, suppliers, and industrial buyers under one roof. The expo showcases advanced machine tools, metal forming technologies, automation systems, robotics, and smart manufacturing solutions through live demonstrations and product displays.

Designed to promote business networking, knowledge sharing, and industrial collaboration, INDUS-TECH Kolkata creates opportunities for companies to expand into the fast-growing markets of Eastern and North-Eastern India while building valuable business partnerships.

Eastern India's Manufacturing Momentum: Powering the Next Phase of Industrial Development

Eastern India is witnessing rapid industrial growth, driven by expanding infrastructure, manufacturing investments, logistics development, and government initiatives. West Bengal serves as a strategic gateway to Eastern and North-Eastern markets, making Kolkata an ideal destination for industrial business and technology exchange.

With increasing demand across sectors such as engineering, automotive, railways, steel, foundry, fabrication, electrical equipment, infrastructure, and precision manufacturing, advanced machine tools and automation technologies are accelerating productivity, quality, and innovation throughout the region.

Who Should Exhibit

01

Machine Tools, Metal Forming & Manufacturing Equipment

- CNC Machine Tools & Machining Centres
- Press Machines & Metal Forming Equipment
- Laser Cutting, Plasma & Waterjet Systems
- Sheet Metal Processing Machines
- Bending, Punching & Rolling Machines
- Tooling, Dies, Moulds & Fixtures
- Welding, Fabrication & Surface Finishing Technologies

02

Automation, Smart Manufacturing & Digital Solutions

- Factory Automation Solutions
- Industrial Robotics & Cobots
- Smart Factory & Industry 4.0 Technologies
- Material Handling & Warehouse Automation
- CAD/CAM, Industrial Software & Digital Manufacturing
- Sensors, PLCs, Motion Control & Industrial Electronics
- Testing, Inspection & Quality Control Equipment

03

Industrial Components, Engineering & Support Systems

- Hydraulic & Pneumatic Systems
- Industrial Compressors & Air Solutions
- Bearings, Gears & Power Transmission
- Valves, Pumps & Fluid Engineering
- Electric Motors, Drives & Control Panels
- Electrical Components & Industrial Cables
- Surface Treatment, Coating & Finishing Technologies

Why Participate

01

Connect with 25,000+ qualified business visitors, OEMs, distributors, plant heads, procurement professionals and industrial buyers from Eastern India.

02

Showcase your latest products through live machine demonstrations and attract serious business enquiries.

03

Generate high-quality B2B leads with decision-makers actively looking for manufacturing technologies and industrial solutions.

04

Expand your presence across West Bengal, Odisha, Jharkhand, Bihar, Assam and North-East India.

05

Build strategic partnerships with manufacturers, dealers, system integrators and technology providers.

06

Launch new products, strengthen brand visibility and position your company as an industry leader.

07

Meet existing customers while acquiring new clients from rapidly growing industrial sectors.

08

Achieve measurable ROI through business networking, enquiries, partnerships and on-the-spot deal discussions.

Always Deliver More Than Expected

Exhibitor views

“We received an outstanding response at this year's expo. We showcased our best products, including the HMC DX200, and saw strong engagement both from local customers and visitors from other states. We achieved most of our targets for this expo and are thankful to the organizers for putting together such a well-run event. We will definitely be back next year.”

Jyoti CNC Automation

“The leads and footfall across all four days were excellent. Strong customer feedback and the volume of inquiries we gathered reflect the real growth happening in the manufacturing sector. Our experience this year was as impressive as last year — if not more so. We look forward to returning next year and expect the momentum to only grow further.”

ACE Micromatic

“Over four days, we witnessed fantastic footfall and an excellent response from visitors. As a metal cutting solutions company, this expo connected us with exactly the right audience. DEPL organized the event in a highly professional manner, and we hope this standard continues in the years ahead. We look forward to seeing the same quality of execution at future editions.”

Bharat Fritz Werner Ltd. (BFW)

“INDUS-tech Expo delivered on every front. Customer footfall was strong, and we were pleased to see visitors not just from Kolkata but from other states as well. Our company has been in the industry for 66 years, and we manufacture machines in-house, many of which we also export. We are fully satisfied with this expo across every parameter and will definitely participate again next year.”

T. L. Pathak & Co.

“We showcased our metal cutting machines, designed for cutting materials like steel, aluminium, titanium, and more. Our experience at INDUS-tech Expo was outstanding. The expo provided the right platform to connect with the industries that need our solutions, and the overall experience was truly impressive.”

Mehta Hitech Industries Limited

“This was our first time participating in Eastern India. Yamazen is a Japanese company, and we represent a full range of Japanese machines across India, with our head office in Gurugram. Expanding into the Eastern India market was a key goal for us, and INDUS-tech gave us exactly the right platform to do that. Customer response was very encouraging, and the support from the organizing team.”

Yamazen Machinery & Tools India Pvt Ltd

Exhibitor views

“This year's response was even better than last year — which was already strong. We received solid inquiries across all our product lines, with notable interest coming from customers in Jharkhand and Odisha as well. Expos like INDUS-tech play a real role in bringing industries together, and we will be participating again next year without a doubt.”

Power-One Micro Systems

“We have been participating in INDUS-tech Expo for the past 3–4 years, and each edition reinforces why we keep coming back. This year was no different — the leads and inquiries we generated made it a thoroughly positive experience. We look forward to being part of the next edition as well.”

Jupiter Rollform Machines Pvt. Ltd.

“We offer complete laser solutions to industries — including laser cutting, CNC bending, laser welding, and laser marking machines. INDUS-tech Expo gave us a strong platform to connect with the right buyers, and the response we received was very encouraging. Our overall experience was excellent, and we plan to continue participating in this expo going forward.”

Laser Technologies Pvt. Ltd.

“The response from Kolkata and the wider region was very positive. INDUS-tech Expo's targeted outreach and advertising across West Bengal brought in exactly the kind of audience we needed. The quality of visitors was high, and we generated meaningful leads. INDUS-tech delivered what it promised — we will certainly be part of the next edition.”

Sahajanand Technologies Private limited

“We had visited INDUS-tech Expo last year and saw strong potential in the platform. This year, we decided to participate — and the response exceeded our expectations. The footfall was excellent, with a good mix of potential customers actively engaging at our stall. We received quality inquiries and are very satisfied with our overall experience.”

Kitagawa India Pvt. Ltd.

“As an authorized channel partner of Mitsubishi Electric, our experience at the IndusTech Expo was highly encouraging. The event attracted a strong audience, generating meaningful inquiries and productive discussions. Overall, it provided an excellent opportunity for business growth and market outreach.”

KOLKATA

Why Kolkata, West Bengal?

Kolkata, the industrial gateway to Eastern India, is a strategic destination for the Machine Tools, Metal Forming, Automation, and Manufacturing industries. As the capital of West Bengal and a key hub for engineering, steel, railways, foundry, automotive, and heavy industries, Kolkata offers excellent industrial infrastructure, strong logistics connectivity, and access to rapidly growing markets across Eastern and North-Eastern India. Its proximity to Odisha, Jharkhand, Bihar, Assam, and neighbouring countries such as Bangladesh and Nepal makes it an ideal business destination. With a thriving manufacturing ecosystem and increasing industrial investments, Kolkata provides the perfect platform for manufacturers, technology providers, suppliers, and decision-makers to connect, showcase innovations, and expand their business opportunities.

About Organisers

Dronacharya Events Pvt. Ltd. is one of India's leading B2B exhibition organizers, headquartered in Delhi with regional offices in Haryana and West Bengal. Since 2007, the company has been successfully organizing industrial exhibitions, trade fairs, conferences, and business networking events across India. With extensive experience in the manufacturing and engineering sectors, Dronacharya Events delivers high-impact platforms that connect buyers and sellers, promote innovation, and maximize business opportunities, ensuring exceptional value and ROI for exhibitors.
